

**F**or over 40 years Glentek has led the way in the design and manufacture of precision, high performance motion control solutions. Today, in an era of rapid technological advancement, Glentek continues this tradition with the addition of the Omega Series Digital PWM Brushless Servo Amplifiers to our complete line of innovative servo amplifiers and servo motors.

As our customers expand their global reach, Glentek keeps right in step. At Glentek we help our customers provide innovative, reliable products to their customers and gain that crucial competitive edge by providing superior service and fast, convenient access to the right products, at the right time and at the right price.

We believe that "relationship is everything." Glentek's commitment to helping our customers improve their business performance means that we pay attention to your needs before, during and after the sale. We take time upfront to fully evaluate your requirements. Our timely design-to-production cycles enable you to reduce product development time to market. Our commitment to reliable ongoing technical service and support means you can provide that same high level of support to your customers.

Based in the Southern California region of the United States, our modern facility of over 100,000 square feet houses our corporate, engineering and manufacturing staff.
