

GLENTEK
"Solutions for Motion Control"

Certificate of Compliance

REACH Compliance

The European Union Regulation (EC) 1907/2006 is created to regulate the Registration, Evaluation, Authorization and Restriction of Chemical Substances. REACH legislation was finalized in December 2006 and has been in effect since June 2007. This Regulation establishes specific duties and obligations for companies in the European Union (EU) that manufacture or import substances on their own, in preparations, or in articles.

Glentek Incorporated is a producer of "articles" as defined under REACH regulations EC1907/2006. REACH requires article suppliers to inform recipients if an article contains a Substance of Very High Concern (SVHC) in excess of 0.1% by weight. The most up to date information on the current list of SVHCs under REACH can be found at below link.

<https://echa.europa.eu/web/guest/candidate-list-table>

Based on the material content certifications provided by Glentek's suppliers, none of these substances are present in the materials we use in our products per the latest REACH list of Jan 17, 2023 (233 substances). Therefore, Glentek products do not contain any of these SVHC in excess of 0.1% by weight.

Glentek Incorporated is committed to take all necessary steps to ensure our products comply with the REACH requirements and notify customers of any change in article content.
